EXPERIENCE

Frontend Developer   June 2024 – Present
DiDi Mobility   *Hybrid,Cairo*

- Redesigned and optimized the Egyptian website using Next.js, React, GraphQL, Contentful, and Tailwind CSS, implementing RTL design principles. Achieving a 60% YoY increase in visits and conversion rates while improving usability and navigation.
- Oversaw and reviewed the migration process from WordPress to React/Next.js for the Brazilian region (99 App), evaluating code quality, ensuring consistency with internal standards, and challenging decisions to align with best practices and performance goals.
- Delivered 20+ features & enhancements, improving functionality and user satisfaction, while ensuring seamless integration with Figma designs.
- Developed and implemented SEO strategies and advanced analytics features using Ahrefs and Google Tag Manager, and also performed a keyword research that increased website traffic by 20%. Designed user behavior tracking tools for more accurate data-driven insights.

Teaching Assistant   Feb.2025 – Present
Arab Academy for Science, Technology and Maritime Transport   *Part-time, Alexandria*

- Teaching students the fundamentals of software engineering, software development lifecycle, software processes, software testing, and design patterns
- Leading course sections twice a week with 40 students

Frontend Intern   Aug.2023 – Feb.2024
Merry People   *Remote, Australia*

- Collaborated within a team of four to facilitate the migration process from their old website.
- Coordinated the successful migration of more than 100 blog pages while also decreasing the content size by 40%, which lead to an increase of 60% in load time.
- designed 6 distinct web pages tailored for specific interest groups, resulting in a more personalized user experience.
- Utilized advanced image editing software to resize and edit over 1000 images from the previous website, optimizing them for a seamless user experience on the new platform.

PROJECTS

Supplify | *React Native, Prisma, Expo, Tailwind, Node.js, Zustand, TypeScript, Figma*

- Participated in a team of 4 to develop a B2B mobile app for our graduation project, connecting suppliers with restaurant owners.
- Seamlessly translated designs from Figma into a fully functional mobile app using React Native.
- Developed the app using React Native and Tailwind, Integrated backend APIs using Node.js to deliver seamless front-to-back functionality

Transeek | *React, Next.js, Tailwind, Prisma, TypeScript, Node.js, Figma*

- Collaborated in a team of three to develop a website for a company that assists exporters and importers in finalizing the legal work for their products.
- Developed the application using React and Tailwind CSS, leveraging REST APIs to perform diverse tasks.
- Implemented server-side rendering with Next.js to improve performance and SEO and deployed it on Vercel.
